Title:

Comments: Life long Alaskan with a beautiful wife and 3 wonderful children. We enjoy the perks of the outdoors when summer is in full effect. Our family partakes in camping, fishing, hiking all over this great state. I encourage my children to always pick up trash when it is found. I take my family out hunting in Units 13 and Units 14. We partake in ice fishing where deemed appropriate. We enjoy our snow machines when we go out on family trips to Turn-again, Eureka, Cantwell, big lake, Petersville, Hatchers-pass, lost lake near Seward, and Eklutna. Plan B is the best option for us motorized users. Having access to all places to enjoy is key to continuing my families adventures together. We don't want no expansion on designated areas as this limits going on adventures with family and friends. We want to increase access points and maintain those accesses. WE love to explore and gain memories as true native Alaskans, we use the lands to provide for our families and taking away access will hinder how we can provide our family and friends in the near future. Thank you for your time and efforts.
