Title:

Comments: I moved to Alaska in 2010 because of a Military move. My plan was to retire from the Army at Ft. Benning, GA when I hit 20 years of service but that changed when I was offered Alaska as my next duty station. Being an Airborne Ranger I have somewhat of a love for the outdoors and outdoor recreation and sports. I have always been a high adrenaline sports lover and over the last 10 years I have fallen in love with the Chugach and being able to play in the backcountry on skis and snowmachines and spend my summers exploring. This is the reason I have retired in Alaska and continue to call it home. I have taught my daughter how to be a responsible athlete and outdoorswoman and to love and respect the CNF as I do and the importance of being grateful to be an American and enjoys these freedoms. I'm submitting my comment to ask that we are able to keep the CNF open for all of the sports Alaskans love. These are the freedoms I fought for in my 22 years of service to our country. If I have a vote then my vote is to keep all motorized areas open and expand the areas we are allowed to use. Thanks.
