Comments: Justin here my friends family and I have been riding turnagain pass for years and it breaks my heart to hear that it is being threatened to be restricted of all motorized use

There have been so many great irreplaceable memories that have been had out their in the Backcountry so many that you can only get to by snowmachine also takes you to absolutely breathtaking views that are truly life changing views really changes your prespective being able to see all the crazy places Alaska and the chugach Mountains have to offer I am writing this letter to hopefully change some of your minds so that you realize how important some of these opportunities we have really are so we can share many more memories with generations to come!!
