Comments: Plan B is the best for Alaska and all the riders in it, it's a great way for everyone to take a break from reality and enjoy the nice riding terrain that Alaska gives us. Taking that away will minimize so much of what is Alaskan love to do which is ride snowmachines, snowboarding, hiking and much more. Also we won't be able to go and and enjoy the beauty that Alaska holds, it has the most beautiful land in the country. I am a snowmachine rider and that's all I do all winter long and it's my passion, taking the land away will leave me sitting at home all winter long due to no where to ride.
