Comments: To whom it may concern,

I am born and raised Alaskan. I have been riding recreational vehicles primarily in the Chugach National Forest for 30 years. I strongly oppose any further restrictions or closing of any areas to recreational vehicles. The very limited riding areas we currently can access (weather permitting) are not adequate to support our current riding needs. To further restrict any activities in the CNF would be a poor decision. The only current plan that I support is Plan B. I believe that everyone should have equal access to our national forests/parks. Since a young age I have consistently rode in the following zones. Crescent Lake/Carter Lake, Johnson Pass, Turnagain, Skookum and Lost Lake. Each area has its own unique experience and each area allows for fun and safe riding regardless of skill level. I hope that someday I can bring my children to these areas and create lasting memories like the ones I have over the many years of riding. I beg you please do not restrict my ability to enjoy the amazing and beautiful areas of the CNF.
