Comments: To whomever it may concern

I have been enjoying the chugach national forest since 1999 via both snow machine and on skies . I have many memories exploring the different areas of the chugach. It would be very sad and disappointing to see the access to these areas of the chugach be limited or no longer accessible in the future. I hope the new plan will include continued access for my snow machining and skiing in the future.

Thank you for your time

Richard
