Comments: I am writing to support Alternative D on the management plan for the Nellie Juan-College Fjord Wilderness Study Area.

The Prince William Sound and the Wilderness Study Area are among the most spectacular wild places in Alaska, which ranks them among the greatest parts of America's entire natural heritage. This also places the Chugach National Forest and Nellie Juan-College Fjord Wilderness Study Area among the most outstanding wild areas on earth.

At a time when so much of the wild earth and it's inhabitants are under so much stress from climate change, loss of habitat and in some cases loss of indigenous peoples ways of life, we have a unique opportunity to protect these outstanding wild areas, and their inhabitants, for everyone to enjoy.

Thank you for taking my comments in support of Alternative D on the management plan for the Nellie Juan-College Fjord Wilderness Study Area.

Elizabeth McKenzie
