Title:

Comments: I am an avid outdoors woman, I enjoyed recreational areas that allow me motorized access due in part to the fact that I have a special needs son and a special needs sister, that without the motorized portion of our beautiful mountains and valleys that we are fortunate to use in this country, the land of the free and home of the brave. We are already extremely limited on areas where we can recreate, please do not allow them to take anymore away from us. We travel from the middle of AK all the way down into southern Nevada and these proposals effect all of my family. We dirt bike, atv, Snowmobile, horse ride, fish and hunt. Thank you for your time.
