Comments: I was born and raised in Alaska. I've had the privilege to explore and utilize the areas already available in the Chugach for snowmachine use. I would like to see areas in the chugach expanded for future motorized use. Including; mills creek, silver tip creek, Johnsons pass, etc. Along with option B. Motorized access to these areas would allow further exploration and the availability to enjoy more of what Alaska has to offer. Thank you for allowing me to voice my opinion, I hope this comes to a resolution that benefits all involved.
