Title:

Comments: I am not in support of locking up public lands. My family has used these public lands to snowmachine and 4-wheel for years. We have raised our children to hunt, fish, snowmachine and ski. The land is ours and we should be able to use it to enjoy the great outdoors. So many don't have the ability to pay to go into parks. It really would be a mistake to cut these benefits from the people in our state. Not only is it a bad idea but it will undermine the community as well when people aren't buying goods to be used in the use of this land. Jobs will be lost. I sincerely hope this doesn't happen. I think all Alaskans should fight for the use of this land. I think we have enough kids being raised to sit on a couch and play video games. Let's get our kids involved in the great outdoors.
