Title:

Comments: I've lived in alaska my entire life (27years) and will, with a doubt, spend the rest of my life up here in this beautiful state enjoying everything that it has to offer. Which includes some of my favorites hobbies, snowmachining, fishing, hiking and mountain biking. With that being said the CNF is one of my favorite places to enjoy those activities and it would be a shame if I/no one else could continue to enjoy the areas that are currently open.

Some of the areas i enjoy exploring while snowmachining are 20 mile river, Whittier, Placer river, Skookum drainage, Squirrel flats, Grandview, Turnagain pass, Johnsons pass, Snug Harbor, and Lost lake. All of these places are special in there own way and it would be a major disapointment to see any of them be closed down to motorized use. Which is why I support Plan B and would like to continue accessing all of the areas that are currently open and any that will open in the future

Thank you for your time

Cameron
