Comments: I have been coming to Alaska since I was 13 years old to work as a commercial fisherman out of Kenai. I absolutely love this place and love the time I have spent exploring the vast beauty of God's creation in this area. The mountains have always been my home, my retreat, and a place where I find rest.

I have done a lot of hiking but because of school, I have never been able to come and ride snowmachines in Alaska. Anyone that knows me knows I how much I love to ride and how much I love Alaska. I only have one year left of school and am planning to move up North as soon as I can find an electrical engineering position in the area. I have always dreamed of long days of riding in Alaska and specifically in Chugach where so many of my friends have told me stories and showed me pictures of this place. I understand you guys have to do what you have to do but this has always been a dream of mine and if I get a vote I vote for snowmachines to stay.

Thanks for the opportunity to share
