Comments: To whom it may concern,

I am strongly opposed to losing any further snow machine accessible territory on the kenai peninsula. Plans C and D are therefore unacceptable. Alaska is my home because I love the land, mountains, and the freedom that Alaska offers. Motorized winter activities are an amazing way to see and explore the amazing state we live in. Please do not limit access to an area that is large enough for everyone to enjoy regardless of how they choose to enjoy it.

-Landon Bryan
