Comments: Hello,

As a regular user of the Chugach National Forest and Alaska residen, I'd like to see more of the CNF open to the public. I mountiain bike, ski, run, camp, and snowmachine throughout the CNF and I hope that my children can continue to use the CNF like I have and my family before me.

What worries me most is a drive to make additional parts of the CNF a Wilderness. If we can't enjoy the land, what is the point in preserving it for the public. I oppose further Wilderness designations.

I don't want to see more land lost for snowmachine access on the Kenai Peninsula, Lost Lake, 20-mile, wtc.

I hope that the actual users of the CNF can guide its long-term plan so that we can continue to recreate throughout the CNF and hopefully allow use throughout more of it.
