Last name: Rodamer

Organization:

Title:

Comments: In support of plan B.

Motorized access and the community of riders that use this area is huge. It is not just the access but the people, the friendships, the memories, it's a lifestyle. It positively impacts the economy, it's a source for health and exercise, it's where we go to relive stress, get out, explore, be active and so much more. Limiting these areas for motorized use will take away what people have come to know as a way of life here. Born and raised in Alaska, I have spent much time in these areas and have seen so much positivity that it has brought about. I hope to continue using these areas for years to come, and support the rest of the community that feels that same.
