First name: Brenden and Julie

Last name: Raymond-Yakoubian

Organization:

Title:

Comments: We support Alternative D regarding wilderness designation for areas within the Nellie Juan-College Fiord Wilderness Study Area (as pertains to the USFS Draft Land and Resource Management Plan for the Chugach National Forest, which is currently under consideration). The Plan should protect the wilderness character of the Wilderness Study Area.

Wilderness in its tangible and abstract senses is at the center of the soul of the planet and everything in it, including humanity, and we must stop turning our backs on it and forsaking our most important birthright - to be wild and free, and to live in a world that is also wild and free.

Sincerely,

Brenden and Julie Raymond-Yakoubian
