Title:

Comments: To whom it may concern,

My name is Zack Wright and I am a life long Alaskan. I use the Chugach National Forest for a variety of uses both motorized and non-motorized. Motorized activities include use of my airboat and snowmachine. Non-motorized include hunting, fishing, hiking, alpine skiing, and bicycling. The beauty of the CNF is that it allows everyone to enjoy all of these activities close to home and in some of the most excellent country in Alaska.

Motorized access must be preserved in the CNF and Alternatives C and D are not acceptable to the users of the CNF. Placer River, Twenty-Mile, and the Whittier must remain accessible by motorized users including snowmachines, airboats, jetboats, and hovercraft. Altering and restricting motorized use in areas simply puts many areas out of reach for the average person. Very few users will have the time or energy to access some of the areas restricted without motorized use.
