Comments: Dear Chugach forest service,

I know the topic of subtracting land use for motorized vehicles has been talked about a lot during this revision time. But I'm pushing to expand or leave the boundaries as they are for the use of motorized vehicles in the Chugach, especially for snowmachines. As a rider since the age of 8 I have always loved riding the Chugach over any area in Alaska as do many other riders. All I am asking from you and your department is to listen to what us riders have to say. Thank you

Sincerely,

Sam Inukai
