Title:

Comments: I support alternative B. I have been riding snow machines, hiking and camping in the Chugach since I moved up here in 2005. Losing these activities in these areas would be a huge disappointment. If these activities are lost in these areas, I would strongly consider moving from this state to less restricted areas. Snow machining is my passion and is upsetting to see areas like the Chagach getting banned which is why I support alternative B

Thank you

Daniel
