Comments: To Whom it may concern,

I've been an Alaska resident nearly all my life and year after year I grow to love our outdoors. Hiking, Hunting, mountain biking, ATVing and soon snow machining. With every outdoor activity we partake in, i've always been taught to pack out what we pack in, to preserve the same lands we play in.

Out of the options being presented, I strongly favor option B. Keeping and increasing motorized access will help everyone enjoy the Backcountry, especially for us new riders.
