Comments: Hello,

I support option B for the Chugach National Forest. I enjoy skiing, snowmobiles, hiking, fishing, and hunting in the Chugach. Motorized use of the Chugach is important to me so that I can enjoy these areas and I think that future generation should have the opportunities to recreate in these areas. New machines are quieter and more efficient. If we lose areas to recreate in then eventually they will all be gone and we won't get them back.

Please choose to keep access and motorized access to these lands so that we can continue to responsibly enjoy them.

Thank you,  
Elliott Larsen
