Comments: Hello,

I am an Anchorage resident and have recreated in Prince William Sound multiple times. I recognize PWS to be a unique gem in Alaska which should be treated carefully to maintain its beauty, subsistence ability, and tourist potential. I am concerned about the recent draft plan to change the Prince William Sound Study Area. I want to make public my agreement with the comments submitted by the Prince William Sound Stewardship Foundation. Please protect the wilderness character in the Study Area.

Thank you.
