Title:

Comments: I am a long time resident of Alaska who has enjoyed the outdoor adventures of Alaska. I have for many years been on snowmachines in Alaska. Alaska has some of the most breathtaking scenery in the winter. My children were raised in Alaska and are avid outdoor individuals. I have watched my grandchildren follow their parents footsteps for their love of the outdoors. We have had summer and winter activities as a family. It energizes our minds and bodies. I want my future generations have the same opportunities.

Living in Alaska you need to have activities in the winter. Without activities such as ours, we run the risk of severe cabin fever. I support Alternative A. Alternative C and D are unacceptable.

Thank you.
