Comments: I was born and raised here in AK and have spent more time snowmachining in the Chugach mountains than anywhere else in my life. It is an important recreational activity to me and I'd like to see option B as the revised plan of choice. As much as I'd love to see alot more land open up for residents in the Valdez/Cordova/Thompson pass area, I don't think it's fair for it to be at the expense of summer time motorized access in the peninsula. Myself and many others that I know find the kenia peninsula as prime source for hunting and fishing so restricting the summer time motorized access there is not convenient at, not only for myself and others who do it for fun, but also those who depend on it to live. my views are pretty simple and to the point. In a perfect world, we could have the additional acres of backcountry near Cordova and keep summer time access but that's not an option so that is why I choose option B.
