Comments: To whom it may concern,

First I would like to thank you for taking the time to read my comment. I am not a native resident of Alaska, but I enjoy motorized and non-motorized recreation opportunities in our nation's national forests. Specifically riding ATVs, dirt bikes, snowmobiles, camping, and hiking. I understand the importance of balancing recreation uses and areas. However, in recent years the trend has always been removal or reduction of motorized recreation areas. I do not believe this is done in the best interest of all parties, but rather to conform to personal agendas. Therefore I ask that in choosing the proposal option going forward that it is fair and supports motorized recreation in areas where it has been historically allowed. I would very much like to visit my friends in Alaska one day and still be able to explore the winter landscape on our snowmobiles.

Thank you.
