Comments: Forest revision plan Cory Davis

I'm re submitting, I wasn't satisfied with my first draft and was unable to change it

Im writing today in regards to the forest plan.

1st. I support plan B, absolutely no to C or D

2nd. Maintain and increase access corridors

3rd. No expansion on designated wilderness areas

I grew up riding the chugach, my background of growing up and learning to ride in these wonderful mountains has taking me to 14 and counting X-games and 6 X Games medals.

I spend a majority of my spare time in the chugach recreating of all types, I'm against the segregation on motors and Non Motors and feel that the area is plenty big enough to accommodate a similar situation as Thompson Pass.

The ability to access the chugach is a major factor in what has kept me in Alaska, I urge you to maintain all the access and areas we have now and would love to see a shift to more areas and zones opened

I very much appreciate your time,

Cory Davis
