Comments: I am voicing my support for the expansion of snow making infrastructure and summer trail expansion. I want to limit my support to having the improvements made available to the general public with out the need for increased fees/costs unless a person utilizes Copper Mountain specific services.

Hiking and biking trails should be available to the general public without a use fee as the trails are located on public land. Same thing for campground sites allowing for a fee/cost when using Copper Mountain specific services.

Public land == public access.
