First name: Ross

Last name: Holter

Organization:

Title:

Comments: I fully support this proposed project. I believe it will be beneficial in terms of habitat restoration and employment impacts. I have enjoyed hunting, fishing, camping, and recreating in the Swan valley for over 40 years. I have even cut firewood!(gasp!) This work needs to be done. I believe I speak for the quiet working majority rather than the vocal career-obstructionist minority that seems to prevail in shutting down and locking up.
