Title:

Comments: How come they didn't build want to build this target range at the last chosen spot to build that was rejected because there was a \$300,000 dollar house built there, but now they want to bring down my property value and all of us on 180 with this target range. Also teddy Roosevelt when he set aside land,for a national Forrest did not intend for it to be,used for private recreation uses. This land was to be preserved throughout the generations to be enjoyed as the wilderness it is.
