Comments: My apologies for missing the official comment period for the Vail snowmaking proposal #54859. I want to offer my support for the projects, as an Epic Passholder and former Vail local (BMHS, Class of '92!). My husband and children and I live in Fort Collins and ski at Vail as often as we can each winter. The modernization and expansions of the snowmaking operations at Vail will make the mountain more fun to ski, but more importantly will provide all with a safer experience. I applaud Vail Resorts for making steps to enhance skier safety in this way, and for continuing to accommodate skiers at all levels including young children and beginners.

Thank you for your consideration of this comment.

Best,

Kyle Anne Nelson
