Comments: I agree with the actions proposed in the Granite Meadows Project save for the destruction of functioning existing restroom facilities and some roads and trails.

I do believe that some plans could be changed to save monies better spent elsewhere. Such as trail care and maintenance as well as save some roads for our ever growing recreationaly diverse population.

Further I believe a keen eye toward dispersion of recreationist is a growing concern. Please keep me included in this discussion and I thank you for the opportunity to comment.
