Comments: Just wanted to take opportunity

The Wayne national forest is a great place to ride motorcycles. I used to ride there all the time back 15 or so years ago then everything fell apart when you would get fined for having fun. There are super good, great areas for single track in the whole area of the Wayne. I hope there are legal single track put in so that I will be there to enjoy the great riding and as well as all my friends that used to go there also. We all enjoy going to Hatfield McCoy trail system but it is a 4-5 hr trip. The Wayne would be 1 1/2 hrs away and like I say there is some awesome riding there. Trail passes not a problem that cost helps to keep the system in top shape. Camp Williams and camp Ohio would also benefit from this also as well as possible new camping areas. Single Track make it happen!!! Thanks for this opportunity. Buckeye Bob
