Comments: Single track trails - Offroad motorcycle

Please support , add , increase or invest in any initiatives to enhance single track trails for motorized off-road dirt bikes. This is something we have started in NW Ohio , and it really is a safer , and more enjoyable ride for two wheeled trail riders. Low speeds, keep it safe as well, and disturb the trail , so maintenance in less frequent.

Maumee State Forest In NW Ohio has started , and has continued to develop this type of trail system , with partners The Toledo Trail Riders.
