Comments: motorcycle single tack at the Wayne

We need single track ! The area is way too crowded for all to enjoy. Years ago atv and dirt bikes had room to share. Now days with the added utv it becomes very dangerous for dirt bikes. I myself have many almost miss from out of control atvs. I don't go to the Wayne much any more afraid of having a head on with these big rigs. A dirt bike will loose that encounter. My grand kids are into dirt bikes and I don't take them to the Wayne for that reason.

We end up going to the Hatfield and McCoy or in to Michigan and Pennsylvania for a weekend of enjoyment not worrying about a head on encounter. We would love to ride at the Wayne its only a 1/2 drive instead of 3 hrs. Please consider the single track for us and feature dirt bikers in our own back yard for all to enjoy our national forest .
