Comments: Single track in the Wayne

Hello,

I understand you are looking for input on trail use in the Wayne National Forest.

The riding opportunities in Ohio was a major factor in me moving to Ohio in 1987.

The Wayne trails for motorcycles have always been very important and well known in the motorcycling community.

The single track trails are really the standouts for us hobby riders. It is challenging and exhilarating to be on a narrow trail which really requires full concentration. Yet I think it is much less dangerous as really we do not need or want to go very fast and there are not larger vehicles to watch out for coming from different directions.

I cannot tell you how many times I have stopped to see wildlife along the trail as they do not even hear us coming. And it is quite exhilarating to see what is going on in the deep woods.

The best part of any recreation is ones full involvement which is totally relaxing to the mind and spirit. Single track trails for off-road riding is really ideal for this and I hope you will include this option in your plan.

Best regards

Dave Grohman
