Comments: Wayne National Forest Singletrack

Dear WNF representative;

As an Ohio native I have had the joy of routinely accessing the moto/atv/utv trails within WNF as well as those in the NW of Ohio, supported by the Toledo Trail Riders. While it is true that WNF has a much larger variety of trails, I find that the trails near Toledo are more enjoyable for the single track areas they provide to off road motorcycle enthusiasts, as well as the one-way trail directions. The most stressfful parts of riding WNF (and why I don't often visit) is oncoming UTVs in narrow two track.

I strongly encourage Wayne National Forest to consider developing dedicated motorcycle single track routes utilizing a variety of terrain from beginners to expert. I further steongly encourage the development of safe, songle direction trail usage.

Thank you for your consideration.
