Comments: Dirt bike single track at wnf

Dear Sir,

I am writing to commend you for allowing expansion of Mountain bike trails at the Wayne National Forest. I would also encourage your team to consider expansion of single track dirt bike trails as well. I have traveled 4 hours to take advantage of the riding opportunities at the wnf, and would be interested in expanded single track opportunities because I just don't want to be run over by a utv. I appreciate your efforts and thank you for your service to our national Forest.

Regards,

Shanna Taylor
