Comments: Wayne National Forest single track dirt bike trails.

Rachel,

I am writing to you asking you to consider adding single track trails to Wayne National Forest. I have been riding down there for many years. It is my favorite place to ride. The one thing that could make it better would be the addition of single track trails. I enjoy the tight trails and the difficulty that single tracks typically offer. Over the last few years the trails have become wider and more easy riding. This is by no mean a complaint but would nice to have the opportunity to jump on different types of trails based on you mood for the day.

The other major advantage the single tracks offer for me is they do not have the larger vehicles heading in the opposite direction. The more maintained, wider trails allow for greater speed. It would just be piece of mind no having to work about the oncoming larger head on traffic.

Thanks,

Rob
