First name: Spencer

Last name: Ball

Organization: rmsr

Title: Club Officer

Comments: Rocky Mountain Sport Riders (RMSR) approves of the Muddy Pass/Sheephorn Project #53148. This area should be considered for much more motorized use. The recent closures don't make sense and are not working. The amount of time and money spent to destroy roads in the area is a complete waste of tax dollars for a division of the government (USFS) that's tight on resources.

RMSR, myself and the majority of our 500 plus followers would like to see 993.W1 opened to all motorized wheeled vehicles.

In addition, there are many temporary haul roads that are being improved in the project and would provide possible trails for OHV usage after the project is completed. This is an area where recreational opportunities area badly needed and there are already high levels of demand for limited trail mileage. We would like to explore a small network of short trails in this area to help provide better recreational opportunities.
