Comments: Hello,

I wanted to make known my concern about the density and number of new road construction in conjunction with the mid-swan project. It's been brought to our attention that it would conflict the Forest Service's previous standards of road density in grizzly bear habitat. This year has seen so many grizzly bear mortalities due to cars, it would be devastating to potentially see it worsen.

Thank you for the opportunity to comment.

Sincerely,

Andrea Creel
