Title:

Comments: TO whom it may concern:

I write to you today in support of multi use public lands. As an avid hiker, mountain biker, snowmobile user and dirt biker who has enjoyed the public lands in Wyoming and Idaho for over 18 years I plea that you would not shut our doors to multiple uses for recreation. Dirt biking, mountain biking, and snowmobiling have become sports that foster stewardship and trail use money. They are sports that pump dollars into our economy. I grew up hiking and climbing and enjoying wilderness but there needs to be a place in Idaho where we can use and enjoy our wild lands with bikes and dirt bikes as well. We have our established wilderness areas, and our national parks that do not allow/limit wheeled or motorized use. Let's allow our economy to keep building by allowing multi use areas as well.

Idaho Overall:

"Snowmobile owners spent

over \$197.5 million on snowmobiles, related equipment, fuel, lodging, food, and other retail during the 12-month period of July 2015-June 2016. "
