Comments: I think we have all had enough of your false reasons for these unnecessary roundups. Leave them alone, undisturbed. What are you going to do with the ? Add them to the 50,000 you already don't know what to do with? Really! Send them to slaughter? We know your working on it. These are OUR horses and they are protected and you are breaking the law. Hands off. We the People don't want them touched.
