Comments: Please Preserve Access to King Mountain Hang Gliding Launch!

* King Mountain is a historic hang gliding site. It is one of the oldest sites and has been in consistent use since the sport's inception. It is also the site of National competitions and continues to draw pilots from all over the world.

* Maintaining access to launch is critical. The Forest Service constructed and maintains the current road to launch so they have already identified the site's importance to the sport of silent soaring.

* Hang gliding has created a significant positive economic impact to Butte County-one of the poorest counties in Idaho. The local community embraces hang gliding and sees an increase in business due to pilot visitors who visit the area each year.
