Title:

Comments: Hello! I was alerted by my hang gliding club that access to King Mountain might be severely restricted or altogether removed.

Please, please reconsider any possible closure of access to this beloved site, used for decades by the free flight community. By keeping access to this site open, you will ensure further decades of continued enjoyment and appreciation of our national forests, one of the greatest public goods of this wonderful country of ours, as well as perhaps one of the greatest free flight sites that exist in the lower 48; the site of many championships in the past.

Please consider, the less people able to enjoy our national forests, the less people who can advocate for said forests!

Thank you for your consideration. Cheers.

Alfredo
