Comments: I would like to submit a comment to the Forest Service about the value of King Mountain as a flying site for hang gliders and para gliders. This includes road access to King Mountain launch and the airspace above the surrounding areas, including the Lost River and the Lemhi Range. We have flown this wonderful site for years and it would be a huge loss to the flying community. There is a unique beauty to this site that is not duplicated anywhere else in the world. Flying hang gliders and para gliders has minimum impact on the mountain. We are a group of users of the forest that appreciate the wilderness and often leave the area in better condition than we found it. Please consider letting flying remain an activity in the King Mountain area. Thank You
