First name: Dawn

Last name: Rasnake

Organization:

Title: Mrs

Comments: Why are plans on the table to REMOVE the wild horse and burro's? There is no need for this action what are they hurting? They have been in the wild for years and why is it that that human race wants to eliminate animals and make nature's beauty a thing of the past to come? What exactly is the purpose of this action? What will you do with these animals once caught? Is it to simply destroy them? I ask you please leave these beings alone and let them roam and run free for this has happened over years and years. I had a great opportunity years ago while hiking up there to witness them standing in the wild and was AMAZED by their beauty. Watching/witnessing was just in awww please do not do this. I pray you really consider NOT to do this.
