First name: lesley

Last name: lovelace

Organization:

Title: mrs

Comments: I am a member of the British Horse Society and now an American citizen and lived in Vegas for many years. I know this herd and have followed the clearing of all mustangs to a make way for private developments and cattle owners who wish to utilize all the lands roamed on by the mustangs. It is outrageous that this is allowed to continue especially as they have been covered by the 1970's act to protect them for ever with weak excuses why they should be removed. We now have over 50,000 horses in holding centers!!1 Why how are they to be cared for, who trims their feet for example?? No shade is high temps. Inhumane treatment of wonderful animals the US was built upon their backs for gods sake!! Stop the insanity being undertaken for purely financial reasons.
