First name: Juliette

Last name: Dauterive

Organization:

Title:

Comments: To Whom it May Concern, I am writing to ask the U.S. Forest Service to protect the wild horses and burros of the Spring Mountain Complex by developing a management plan that allows them to continue to inhabit the public lands where they live. I know it must be possible to do this at a more efficient cost than removal and adoption or warehousing. I own a Nevada mustang and hope they will continue to survive in their natural home. Thank you for your time and consideration. sincerely, Juliette Dauterive
