Comments: Wayne National Forest Single-Track

Hi Rachel,

As a 20-year motorcyclist and outdoor lover, I urge you to consider implementing single-track trail in the Wayne National Forest in Ohio. I believe in responsible off-highway vehicle recreation on public land.

Off-highway motorcycle recreation allows my family and I to spend time together and enjoy the outdoors. Trails designed specifically for motorcycle use are safer and more enjoyable for dirtbike riders.

I have purchased annual and shorter-term permits for riding my dirtbike in Wayne National Forest, and I would purchase more of them and use the forest more if single-track motorcycle-only trail were available.

If single-track motorcycle-only trail is not added to the trail system at Wayne National Forest, I will probably choose to ride and spend my money at other locations.

Please approve the addition of single-track motorcycle trails in Wayne National Forest.

Thank you.

Heather Wilson
