Comments: Single Track Riding

To Who it May Concern,

I am a motorcycle rider who lives for single track riding. To me it is the greatest of all trails and way all kids should be taught to ride. It teaches the fundamentals of riding within a safe environment. Mistakes are made in 1st and 2nd gear with crashes at no more than 20mph often times bouncing off a tree or going off the trail. Instead of flying off 20ft jumps over throttling and landing on your back hoping the bike doesnt land on top of you. Again single track trail riding is something you can do at all ages. I often ride with my little cousins and my uncles. Please help spread single track trails across the country and provide a safe place for kids and adults to ride motorcycles.

Thanks

Caleb Norgaard a MI native who rides single track in Wolverine, MI at the best single track trails in the Midwest--Tomohawk Trails.
